PROVEN

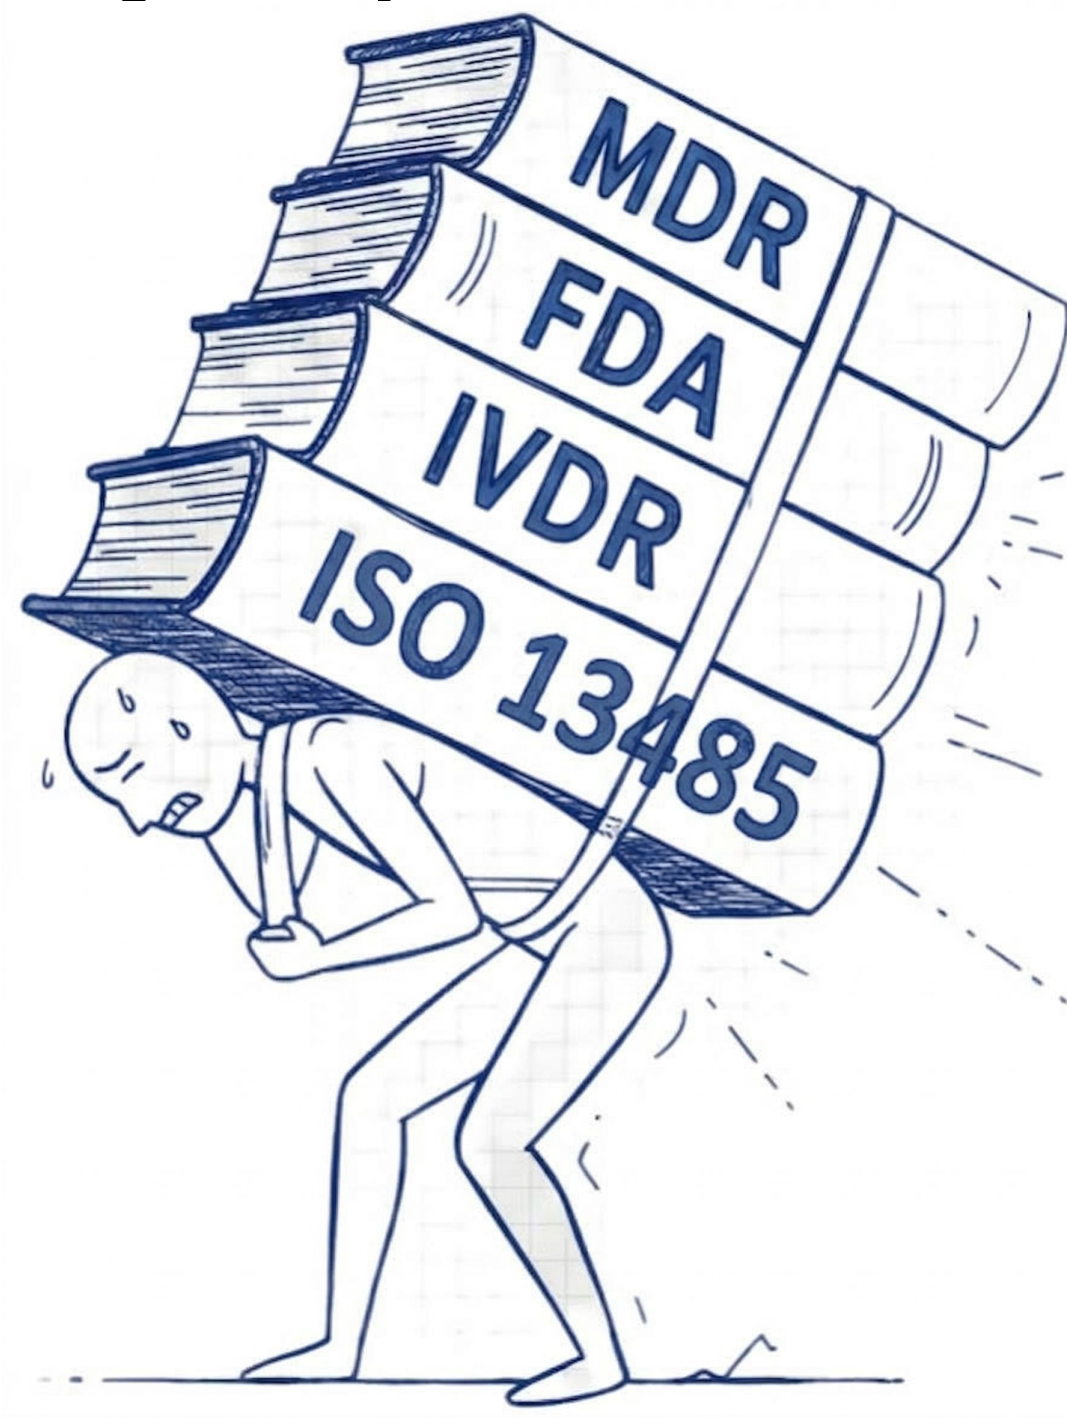

**NO MORE
WEDDINGS**

The background of the slide is a light blue-grey color with a soft, painterly texture. It features several large, stylized raindrops falling from the top, and a series of thin, vertical lines representing rain falling across the entire scene. In the upper portion, there are faint, greyish-blue clouds. The overall mood is calm yet dynamic, reflecting the 'rain' mentioned in the title.

with AI

Compliance
as
Superpower

Tackle the monkey first and divide and conquer

Decomposition at its best

Integrate as early as possible to learn as soon as possible

Anchoring of Dynamic Agility Principles

ODP's manifest and guiding principles make us dynamically adaptive

The **ODP Manifest** describes the values and principles we use as a foundation for the development of the OneDiagnostics Platform.

Simplicity is our guiding credo in ODP!

We pledge to prioritize the following five main principles to ensure that our project is effective, efficient, and aligned with the principle of simplicity.

Our goals are described under the five principles of **usability, security & safety, sustainability, maintainability and reusability**.

Reusability

Security & Safety

Usability

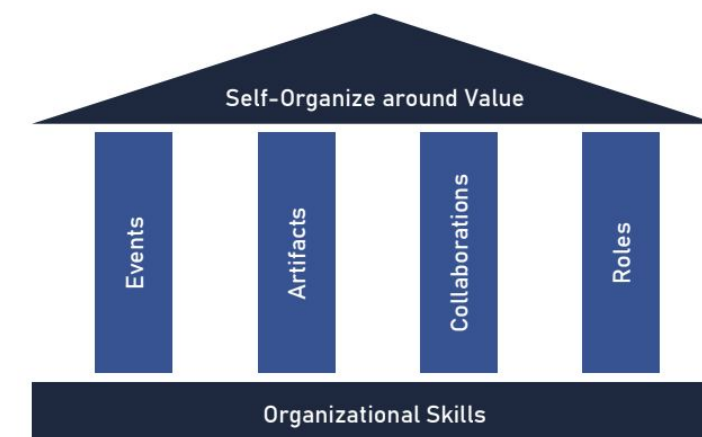

Maintainability

Sustainability

The House of Dynamic Agility ...
... shows the synchronization options between teams

5

Dynamically design the collaboration structure to optimize the flow of value.

Maturity is about Surviving in the Rain

Scaling is not a finish line. It is about whether your system, your architecture, and your culture, is mature enough to handle the reality of the storm.

Time to reflect

**Now, to you:
What is YOUR monkey?**
